

SOP 1 - Multi-Platform Booking Management

Document Purpose

Ensure every booking across all platforms is:

- Recorded immediately
- Verified against minimum logic
- Logged in CRM
- Operationally visible
- Financially traceable

This SOP prevents:

- Overbooking
 - Lost revenue
 - Guest confusion
 - Operational chaos
-

Event Framework Reference

- Event Start Time: 9:30 PM
- Final Confirmation Cut-Off: 7:00 PM

This SOP works together with the **Minimum Guest Confirmation SOP (7 PM Rule)**.

Owner

Primary: Operations

Oversight: Founder

Hosts: No booking authority

Step 1 — Booking Intake

Trigger: A paid booking is received from:

- Airbnb
 - GetYourGuide
 - Viator
 - Klook
 - Eventbrite
 - Direct Website
 - Manual WhatsApp booking
-

Immediately upon receipt:

Record in Master Booking Sheet / CRM:

- Guest Full Name
- Phone Number (if available)
- Platform Source
- Event Date
- Number of Participants
- Amount Paid
- Timestamp
- Special Notes

If not recorded, it does not exist.

Step 2 — Event Headcount Update

After logging:

- Update total confirmed paid guest count for that date.
- Check minimum threshold.
- Update event status:
 - Pending Minimum
 - Confirmed
 - At Risk

Do NOT confirm event early unless minimum is clearly exceeded.

Step 3 — Pre-Confirmation Communication

If event is still Pending Minimum:

Send standard message:

- Booking received
- Event requires minimum confirmation by 7 PM
- Final confirmation message will follow

Do NOT:

- Share WhatsApp group
 - Promise event
 - Share exact meetup pin
-

Step 4 — Capacity Control

Before 7 PM, monitor:

- Venue capacity
- Host availability
- Transport availability (if required)

If risk appears:

- Alert Founder immediately
- Adjust listings if necessary
- Stop overselling

Never sell beyond operational capacity.

Step 5 — Same-Day Late Bookings

If booking occurs within 4 hours of event:

If event already Confirmed:

- Record booking
- Send direct confirmation
- Share WhatsApp link

If event still Pending:

- Record booking
- Inform about 7 PM confirmation rule

Speed and clarity are critical.

Step 6 — Modification or Cancellation Requests

If guest requests change:

- Follow Refund & Reschedule SOP
- Update CRM immediately
- Adjust headcount
- Recalculate minimum status if necessary

Headcount must always be accurate before 7 PM.

Step 7 — 7:00 PM Cut-Off Sync

At 7:00 PM sharp:

Operations must:

- Recalculate final paid headcount
- Confirm against minimum requirement
- Execute decision under Minimum Confirmation SOP

After 7:00 PM:

No new indecision.

No delay.

No vague communication.

Step 8 — Post-Confirmation Preparation

If Confirmed:

By 8:00 PM ensure:

- Headcount finalized
- Hosts informed
- Venue informed
- WhatsApp group active
- Transport confirmed

This creates a 90-minute buffer before event start.

Escalation Rules

Immediately escalate to Founder if:

- Overbooking risk
- Platform payment discrepancy

- Headcount conflict
- Host shortage
- Strategic override decision required

Only Founder may:

- Override minimum rule
 - Approve non-standard refunds
 - Approve strategic low-minimum run
-

Non-Negotiables

- No verbal-only bookings
- No delayed CRM entry
- No WhatsApp group before confirmation
- No emotional decision-making
- No undocumented manual overrides

Documentation equals control.

Success Indicator

Booking system feels:

- Calm
- Accurate
- Controlled
- Predictable

Guests experience professionalism.

Hosts experience clarity.

Operations experience stability.

SOP 2 — Minimum Guest Confirmation Process (7 PM Rule)

Document Purpose

Defines the official decision protocol for confirming or canceling each event date.

This SOP ensures:

- Clear timing discipline
- Professional communication
- Host stability
- Brand authority
- Operational consistency

Event Start Time: **9:30 PM**

Final Decision Cut-Off: **7:00 PM sharp**

No event remains undecided past 7:15 PM.

Objective

At 7:00 PM, determine whether the event will:

- Proceed as scheduled
 - Be canceled and rescheduled
 - Be approved under Founder Discretion
-

Owner

Primary: Operations

Override Authority: Founder

Hosts do NOT make confirmation decisions.

Phase 1 — Monitoring Period

(T-6 Hours to 7:00 PM)

Throughout the day:

- Track confirmed paid guests across all platforms.
- Ensure CRM headcount accuracy.
- Respond to inquiries.
- Do NOT confirm event early unless minimum is clearly secured.
- Do NOT create WhatsApp group.

Event status remains:

Pending Minimum

Phase 2 — Official Cut-Off Decision

(7:00 PM)

At exactly 7:00 PM:

1. Count confirmed paid guests.
2. Compare against required minimum.
3. Apply decision logic below.

No delay beyond 7:15 PM.

Decision Logic

✓ Case 1 — Minimum Reached

If confirmed paid guests $\geq$ required minimum:

Immediately:

- Mark event as **Confirmed**
- Notify hosts
- Trigger WhatsApp Group SOP
- Send confirmation message
- Share meeting area
- Notify venue
- Confirm transport (if applicable)

Operational deadline: 8:00 PM.

Hosts must have clarity no later than 8:00 PM.

✗ Case 2 — Minimum Not Reached

If confirmed paid guests $<$ required minimum:

Immediately:

- Mark event as **Not Confirmed**
- Send reschedule options
- Offer next available dates
- Process refund if needed
- Update CRM
- Notify hosts of cancellation

No waiting past 7:15 PM.

Clarity $>$ hope.

🟡 Case 3 — Founder Discretion Clause

Founder may override minimum requirement if:

- Revenue quality justifies activation
- Group composition is manageable
- Strategic review opportunity exists
- Repeat or high-value guests involved
- Operational load is sustainable

Override must consider:

- Host energy sustainability
- Brand positioning
- Group balance
- Long-term reputation

If override is approved:

- Mark event as **Confirmed — Founder Override**
- Inform hosts clearly
- Do NOT communicate override to guests

Override is strategic — not emotional.

Capacity & Operational Safety Check

Even if minimum is met, event must NOT proceed if:

- Venue capacity risk exists
- Host coverage insufficient
- Safety concern present
- Severe imbalance risk

Founder retains final authority.

Post-Decision Execution

After confirmation:

Operations must complete before 8:00 PM:

- Final headcount confirmation
 - Host assignment
 - WhatsApp group activation
 - Venue notification
 - Transport confirmation (if needed)
-

Communication Standards

Confirmation Message Must Include:

- Clear confirmation statement
- Start time (9:30 PM)
- Meeting location
- Dress guidance
- Professional tone

Cancellation Message Must Include:

- Clear explanation
- Alternative dates
- Refund path if applicable
- Calm and confident tone

No panic language.

No vague phrasing.

Non-Negotiables

- No indecision after 7:15 PM.
- No WhatsApp group before confirmation.
- No undocumented manual overrides.
- No emotional last-minute activation.

Documentation equals control.

Success Indicator

The confirmation process should feel:

- Decisive
- Structured
- Calm
- Professional

Guests feel: "This is organized."

Hosts feel: "This is controlled."

That is Done Right.

SOP 3 — WhatsApp Group Creation & Communication

Document Purpose

Defines when and how WhatsApp groups are created and managed for each event date.

This SOP ensures:

- No premature confirmation
- Clear guest onboarding
- Controlled communication
- Host visibility
- Professional brand perception

WhatsApp is an operational tool — not a casual chatroom.

Event Framework Reference

- Event Start Time: **9:30 PM**
 - Official Confirmation Cut-Off: **7:00 PM**
 - WhatsApp Group is created **only after event is confirmed**
-

Owner

Primary: Operations

Secondary: Assigned Host

Hosts may manage communication after activation, but group creation follows this SOP.

Phase 1 — Before 7:00 PM (Pending Minimum)

If event status is **Pending Minimum**:

Do NOT:

- Create WhatsApp group
- Share meetup pin
- Add guests to any group

Instead:

Send booking acknowledgment message explaining:

- Event requires minimum confirmation
- Final confirmation at 7:00 PM
- Guests will receive instructions once confirmed

This protects authority and avoids awkward cancellations inside group chats.

Phase 2 — 7:00 PM Confirmation Trigger

Once event is officially marked **Confirmed** under SOP 2:

Immediately initiate WhatsApp Group protocol.

Target completion: before 8:00 PM.

Step 1 — Create Group

Group Name Format:

Bangkok Club Crawl – [Date]

Example:

Bangkok Club Crawl – 17 Feb

Add:

- All confirmed guests
- Assigned host(s)

Do NOT add:

- Pending guests
 - Guests awaiting payment
-

Step 2 — First Official Message (Activation Message)

Send structured confirmation message including:

1. Clear confirmation statement
2. Start time (9:30 PM)
3. Meeting area description (not full pin publicly if not needed)
4. Dress guidance
5. Reminder to arrive on time
6. Tone aligned with brand

Tone must be:

- Confident
 - Clear
 - Not overly casual
 - Not chaotic
-

Step 3 — Meeting Pin Protocol

Only share exact Google Maps pin after:

- Event is confirmed
- Group is active
- Guests are verified

Do NOT:

- Post pin publicly on social media
 - Share in DMs before confirmation
-

Step 4 — Communication Rules Inside Group

Hosts must:

- Keep messages concise
- Avoid spam
- Avoid excessive emojis
- Maintain authority tone
- Answer questions clearly

Do NOT allow:

- Side conversations
- Off-topic clutter

Group exists for coordination.

Step 5 — Late Bookings After Confirmation

If booking occurs after group is active:

1. Record booking in CRM
2. Send direct message

3. Add to group

4. Briefly reintroduce:

“Welcome — event confirmed, details above.”

Do not resend full announcement to entire group.

Step 6 — Guest Cancellations After Confirmation

If guest cancels:

- Follow Refund SOP
- Remove from group
- Update CRM
- Adjust headcount internally

Do not publicly announce cancellation.

Step 7 — Pre-Arrival Reminder (Optional)

Around 8:45–9:00 PM:

Host may send short reminder:

“See you at 9:30. Please stay close — as we move through the night together.”

Keep it short. No over-texting.

Step 8 — During Event Usage

WhatsApp group is used for:

- Late arrival directions
- Regroup instructions
- Movement signals

Not used for:

- Party spam

Hosts remain structured.

Step 9 — Post-Event Closure

After event:

Send thank you message

Example template

"Thank you everyone for joining!

If you enjoyed the experience, it would mean a lot if you could leave us a 5-star review and mention your host's name to support their work 🌟😊

🌟 TripAdvisor: t.ly/rPD7H

🌟 Google: https://g.page/r/CY0P_hVGfy-AEBI/review

If there's anything we can improve, please message us privately — we appreciate honest feedback and we always listen 🙏

Seeing everyone from different places come together, connect, laugh and party... that's what makes this so special for us.

Thank you again 💖
— Nightlife Thailand 🌐🌟"

Include:

- Review link (if appropriate)
- Soft return invitation

Next morning:

Operations may close or archive group.

Guests should not continue using it indefinitely.

Security & Professionalism Rules

- No sensitive operational details in group

- No internal discussions
- No conflict resolution publicly
- Remove disruptive individuals immediately if needed

Control must remain invisible.

Non-Negotiables

- No WhatsApp group before confirmation
- No undecided event inside group
- No chaotic messaging
- No emotional tone shifts
- No oversharing

WhatsApp reflects brand authority.

Success Indicator

A well-run group feels:

- Organized
- Clear
- Calm
- Confident

Guests feel:

"This is structured."

Not:

"Is this even organized?"

SOP 4 — Refund & Reschedule Handling

Document Purpose

Defines how refunds, cancellations, and rescheduling requests are handled.

This SOP ensures:

- Financial protection
- Platform compliance
- Brand professionalism
- Emotional neutrality
- Clear authority boundaries

Refund decisions must be structured — never emotional.

Owner

Primary: Operations

Final Authority: Founder

Hosts do NOT approve refunds.

Section 1 — Standard Policy Framework

Refunds and reschedules are governed by:

- Platform-specific cancellation policies (Airbnb, GetYourGuide, etc.)
- Direct booking terms
- Event confirmation status

- Timing relative to 7:00 PM cut-off
- Operational impact

All refund decisions must be logged in CRM.

Section 2 — Pre-7:00 PM Cancellation (Before Confirmation)

If event is still **Pending Minimum** and guest cancels:

- Follow platform cancellation policy.
- Update CRM.
- Adjust headcount.
- Recalculate minimum status.

If event later cancels due to minimum not reached:

- Guest receives full refund automatically.

No friction. No negotiation.

Section 3 — Event Not Confirmed (After 7:00 PM)

If event fails to meet minimum:

- Offer reschedule first.
- If guest declines reschedule → issue full refund.
- Update CRM.
- Notify host cancellation.

Tone must be confident and professional.

Never blame lack of bookings.

Section 4 — Guest Cancellation After Confirmation

If guest cancels after 7:00 PM and event is confirmed:

Apply platform cancellation rules strictly.

Default policy:

- No refund for same-day cancellation.
- Reschedule only if operationally reasonable.
- No last-minute flexibility without Founder approval.

Reason:

Event costs are already activated:

- Hosts committed
 - Venue coordination locked
 - Operational structure engaged
-

Section 5 — Late Arrival / No-Show

If guest:

- Arrives late
- Misses first venue
- Fails to show entirely

Policy:

- No refund.
- No partial refund.
- No post-event compensation.

If they join late:

- Host integrates them smoothly.

- No emotional adjustment in policy.

Professional consistency builds authority.

Section 6 — Founder Discretion Clause

Founder may override refund rules if:

- Strong review protection required
- Clear operational error occurred
- Unique high-value guest relationship
- Long-term strategic consideration

Override must consider:

- Financial impact
- Precedent risk
- Brand positioning

All overrides must be documented in CRM.

Override is strategic — not emotional.

Section 7 — Complaint-Based Refund Requests

If guest claims dissatisfaction:

1. Stay calm.
2. Acknowledge experience.
3. Do not admit fault immediately.
4. Review:
 - Host report
 - Group feedback

- Event conditions

5. Determine if operational failure occurred.

If operational failure confirmed:

- Offer partial or full refund (Founder approval).

If no failure:

- Reaffirm value delivered.
- Offer future return incentive instead of refund.

Never argue publicly.

Never escalate emotionally.

Section 8 — Platform Protection

When handling OTA refunds:

- Follow platform messaging format.
- Avoid emotional tone.
- Avoid admitting liability unnecessarily.
- Protect review positioning.

Refund decisions should not trigger defensive review patterns.

Section 9 — Documentation Requirements

Every refund or reschedule must record:

- Guest name
- Platform
- Amount refunded
- Reason
- Decision authority

- Date
- Notes

If undocumented, it creates financial blind spots.

Non-Negotiables

- No emotional refunds.
- No public arguments.
- No “just this once” without documentation.
- No host-level refund promises.
- No inconsistent policy enforcement.

Consistency protects brand power.

Success Indicator

Refund handling should feel:

- Calm
- Fair
- Firm
- Controlled

Guests feel respected.

Team feels protected.

Brand remains authoritative.

Airbnb Cancellation & Refund Alignment

All cancellation handling must comply with Airbnb Cancellation Policy.

If Guest Requests Cancellation Before Cut-Off

Follow:

- Your listed cancellation policy on Airbnb
- Airbnb's automatic refund structure

Do not override policy emotionally.

If Guest Requests Cancellation Same Day

If event confirmed (after 7 PM rule):

- Standard policy applies
- Refund only if within platform allowance
- No private refunds outside Airbnb system

If event not confirmed:

- Refund through Airbnb official system
 - Do not refund manually via cash or transfer
-

If Guest Asks to Cancel via WhatsApp

Response:

"Since your booking was made through Airbnb, all cancellations must follow Airbnb's cancellation policy. I recommend submitting your request through the Airbnb app."

Keep communication inside Airbnb message thread when possible.

Non-Negotiables

Never:

- Refund outside Airbnb system
- Encourage guest to cancel in a way that avoids penalties
- Ask guest to modify booking to avoid cancellation penalties

- Cancel on behalf of guest unless strategically necessary

Airbnb cancellation penalties can affect:

- Listing visibility
- Host metrics
- Superhost eligibility

Founder must approve any manual cancellation.

Strategic Reminder

Airbnb is 90% of your revenue.

Protect:

- Response rate
- Cancellation rate
- Review score
- Policy compliance

Short-term flexibility must not damage long-term platform authority.

SOP 5 — Host Assignment & Confirmation

Bangkok Club Crawl

Document Purpose

Defines how hosts are assigned, confirmed, and briefed for each event date.

This SOP ensures:

- Proper coverage
- Clear responsibility
- Leadership stability
- No last-minute chaos
- Consistent delivery of "Bangkok Nights. Done Right."

Hosts must never be uncertain about their role.

Owner

Primary: Operations

Final Authority: Founder

Hosts do not self-assign.

Section 1 — Host Capacity Planning

Host allocation depends on:

- Confirmed guest count

- Event type (Regular vs Big Night)
 - Venue logistics
 - Group dynamic risk level
-

Regular Night Coverage Guideline

Small group (minimum – 12 guests):

- 1 Lead Host

Medium group (12–20 guests):

- 1 Lead Host
- 1 Support Host (recommended)

Large group (20+ guests):

- 1 Lead Host
- 1–2 Support Hosts
- Consider transport coordination

Founder may adjust based on experience and host capability.

Section 2 — Pre-Assignment Planning

During Monitoring Phase (before 7 PM):

Operations must:

- Check host availability
- Confirm backup host readiness
- Tentatively assign primary host
- Prepare coverage plan if minimum reached

No uncertainty at 7 PM.

Section 3 — Official Host Confirmation (After 7 PM)

Once event is marked **Confirmed**:

Immediately:

1. Confirm host(s) via direct message.
2. Share:
 - Final headcount
 - Event type
 - Special notes
3. Confirm arrival time.

Deadline: Before 8:00 PM.

Hosts must respond with confirmation.

No silent assumptions.

Section 4 — Arrival Standard

All hosts must:

- Arrive at least 30 minutes early.
- Review guest list.
- Mentally prepare for escalation structure.
- Confirm venue coordination.

Late host arrival is unacceptable.

Section 5 — Role Definition (If Multiple Hosts)

When 2+ hosts assigned:

Lead Host

- Sets energy tone.
- Delivers anchor lines.
- Leads movement.
- Makes on-the-spot decisions.

Support Host

- Monitors cohesion.
- Anchors rear during transitions.
- Watches alcohol levels.
- Handles isolated guests.

No overlapping authority.

Clear hierarchy always.

Section 6 — Backup Protocol

If assigned host cancels:

- Immediately activate backup host.
- Notify Founder.
- Reconfirm event viability.
- If no backup available → escalate decision under Founder authority.

No event runs without confirmed host coverage.

Section 7 — Performance Awareness

After event:

Operations logs:

- Host punctuality

- Energy control
- Guest feedback
- Incident handling
- Review quality

Host assignment decisions should consider performance history.

Consistency builds authority.

Section 8 — Non-Negotiables

Hosts must never:

- Confirm themselves unofficially.
- Assume event is running without confirmation.
- Delegate to someone else without approval.
- Arrive late.
- Treat assignment casually.

Hosting is leadership, not attendance.

Section 9 — Founder Discretion

Founder may:

- Assign specific host based on guest composition.
- Increase host count for brand protection.
- Personally attend high-risk or high-value nights.
- Override normal allocation for strategic reasons.

All discretionary changes must be documented.

Success Indicator

A strong host assignment system feels:

- Calm
- Structured
- Predictable
- Controlled

Hosts feel prepared.

Guests feel guided.

Brand feels stable.

SOP 6 — Event Night Execution

Bangkok Club Crawl

Document Purpose

Defines the full operational flow of an event night from pre-arrival to close.

This SOP ensures:

- Escalation is delivered intentionally
- Energy is controlled
- Guests feel guided
- Hosts remain authoritative
- “Bangkok Nights. Done Right.” is executed consistently

This document governs execution mechanics.

Emotional design is defined in Experience Architecture.

Micro triggers are defined in Guest Micro-Moments.

Event Framework Reference

- Event Confirmed at 7:00 PM
- Host Confirmation Complete by 8:00 PM
- Host Arrival: Minimum 30 minutes early
- Guest Start Time: 9:30 PM

Owner

Lead Host (Execution Authority)

Support Host (If assigned)

Founder (Escalation Authority)

Phase 1 — Pre-Arrival Preparation

Arrival Time

Hosts must arrive 15-30 minutes before official start.

Pre-Event Checklist

- Confirm venue contact
- Review final headcount
- Review guest names (at least primary names)
- Check WhatsApp group
- Align roles (Lead vs Support)
- Confirm transport logistics (if needed)
- Mentally review escalation structure (Spark → Build → Takeover)

No rushed starts.

Preparation defines tone.

Phase 2 — Guest Arrival (Spark Phase)

Objective

Lower anxiety and establish belonging.

Execution

- Greet guests individually.
- Use names when possible.
- Make eye contact.
- Deliver "You're in the right place."

- Initiate welcome toast.
- Deliver first shared action prompt.

Do NOT:

- Over-hype
- Over-talk
- Drag introductions

Spark must feel smooth and confident.

Phase 3 — Venue 1 Control

Objective

Stabilize group energy around ~40%.

Hosts must:

- Monitor vibe level
- Encourage small-group mixing
- Watch isolated guests
- Maintain movement within venue
- Avoid stagnation

No flat energy.

No chaotic spike.

Phase 4 — Movement Protocol (Venue 1 → 2)

Objective

Establish group unity.

Execution:

- Clear verbal announcement

- Physically gather group
- Mental headcount
- Lead host in front
- Support host at rear
- Move as a unit

Never allow scattered departure.

Movement builds belonging.

Phase 5 — Build Phase (Venues 2 & 3)

Objective

Escalate energy to ~70%.

Hosts must:

- Increase tempo gradually
- Encourage cross-group mixing
- Deliver "This is where it starts to build."
- Capture crew photo moment
- Maintain authority presence
- Monitor alcohol levels carefully

Avoid:

- Plateau
- Early burnout
- Over-dominating energy

This is identity shift stage.

Strangers become crew.

Phase 6 — Peak Arrival (Final Venue)

Objective

Deliver earned payoff (~90% energy).

Execution:

- Enter together
- No fragmentation
- Deliver final anchor line
- Encourage peak moment
- Maintain controlled celebration

Do NOT:

- Let energy collapse early
- Allow group to scatter immediately
- Disappear after entry

Peak must feel intentional.

Phase 7 — Chaos & Risk Control

Throughout entire night, hosts monitor:

1. Vibe Level
2. Alcohol Level
3. Group Cohesion

If issue arises:

- Stay calm
- Remove problem discreetly
- Avoid public confrontation
- Protect group energy first

Control must be invisible.

Guests should never feel tension.

Phase 8 — Late Arrivals

If guest joins late:

- Integrate smoothly
- Avoid disrupting flow
- Brief quickly
- Re-anchor into group

No public frustration.

No reintroduction ceremony.

Phase 9 — Closing Protocol

Objective

Close loop intentionally.

Before departure:

- Deliver final anchor line:
"Bangkok Nights. Done Right."
- Optional: Soft return invitation

Hosts do NOT disappear abruptly.

Controlled close improves memory retention.

Phase 10 — Immediate Post-Event Admin

After event:

- Confirm all guests accounted for
- Document incidents
- Note standout guests
- Log host performance observations
- Flag review follow-up

Next day:

- Trigger review message
- Update CRM tags

No event ends without documentation.

Non-Negotiables

- No visible host intoxication
- No scattered movement
- No chaotic escalation
- No abandonment of isolated guests
- No emotional reaction to issues

Execution must feel effortless.

Behind the scenes, structure must be disciplined.

Success Indicator

A properly executed night feels:

- Electric
- Controlled
- Escalating
- Unified
- Memorable

Guests feel:

"This was the right decision."

That is Done Right.

SOP 7 — Host Post-Event Tracking & Incentive Logging

Purpose

This SOP defines:

- What hosts must complete after each event
- How attendance is recorded
- How referral eligibility is flagged
- How upsell commission is tracked
- How review bonuses are calculated

System must be:

- Fast
- Click-based
- Under 3 minutes
- Commission-accurate

If it feels heavy, it is wrong.

Part 1 — Post-Event Close-Out (Within 12 Hours)

Host completes one simple web form after each event.

Step 1 — Attendance Confirmation

For each booking:

-  Attended
-  No-show

No writing required.

System updates CRM automatically.

Step 2 — Commission Flags (Only If Applicable)

Host flags only when relevant.

Options:

-  Repeat Guest Mentioned Me
-  Private / Corporate Inquiry
-  Bottle / VIP Purchase Confirmed
-  Incident Occurred

If none apply → submit form immediately.

No forced commentary.

Step 3 — Incident Note (Only If Flagged)

If Incident is selected:

- One short factual sentence
- No emotional language
- No essays

Example:

"Guest overly intoxicated, removed before 3rd venue."

Part 2 — Repeat & Referral Commission Logic

System automatically tracks repeat guests by phone number.

Commission applies ONLY if:

- Guest explicitly mentions the host
- OR guest requests the host
- AND booking is verified as paid

Repeat guest without host mention → no commission.

Referral claims must be verifiable via phone match.

No manual claims accepted without system confirmation.

Part 3 — Bottle Commission Logic

If venue provides percentage-based commission:

→ Host receives **50% of commission earned**

If venue provides flat-fee commission:

→ Host receives **1/3 of flat commission amount**

Bottle commission must be verified by venue record or Founder confirmation.

Paid monthly.

Part 4 — Review Bonus Logic

Monthly:

- 100 THB per public 5-star review mentioning host name
- If 5+ 5-star reviews in one month
- AND no operational incidents caused by host

→ +500 THB bonus

Reviews counted monthly.

Paid beginning of following month.

Part 5 — What Hosts Do NOT Track

Hosts do NOT:

- Calculate revenue
- Count guest totals
- Track conversion
- Track marketing performance
- Track overall event margin

They focus on:

Execution → Connection → Opportunity spotting

Part 6 — Payment Timeline

Paid Next Day:

- Base hosting pay
- Per-guest addition

Paid Monthly:

- Review bonus
 - Referral commission
 - Bottle commission
-

Part 7 — Performance Philosophy

Hosts are:

Energy conductors

Relationship builders

Experience leaders

They are not:

Sales closers

Revenue managers

Marketing analysts

Incentives reward:

- Clean execution
 - Positive guest recognition
 - Organic repeat engagement
 - Upsell opportunity spotting
-

Final Rule

Post-event close-out must take under 3 minutes.

If there is nothing special → attendance only.

Lean now.

Scalable later.

SOP 8A — Public Crawl Sales & Lead Qualification

Bangkok Club Crawl

Purpose

Convert high-intent solo travelers while protecting brand positioning and founder time.

Sales must feel:

- Confident
 - Human
 - Structured
 - Not desperate
-

Section 1 — First Reply Structure

When asked price or details:

Use 4-part framework:

1. Direct price
 2. Emotional outcome
 3. Social reassurance
 4. Clear CTA
-

Standard Solo-Optimized Script

"1,500 THB per person.

We visit 4 curated venues with local hosts guiding the flow — so you don't have to navigate the night alone.

Most guests come solo and end up leaving with a crew.

Would you like the booking link for tonight?"

Section 2 — Light Qualification

If they respond positively:

Ask:

- "Are you traveling solo or with friends?"
- "Is this your first night out in Bangkok?"

Use answer to personalize reassurance.

Section 3 — Objection Handling

Use acknowledge → reframe → redirect model.

Never argue.

Never discount.

Never sound defensive.

Section 4 — Follow-Up Rule

If no reply within 6–12 hours:

Send one follow-up only.

Example:

“Just checking — was there anything you were unsure about? Happy to clarify.”

After second silence → stop.

Section 5 — Time Protection Rule

Do not:

- Answer endless price comparison questions.
- Hold spots without payment.
- Build long explanations for low-intent leads.

Booking link is the goal.

Payment = commitment.

Section 6 — Upsell Trigger

If guest says:

- Birthday
- Group of 8+
- Special celebration

Switch to Private Qualification SOP.

Do not continue public script.

Behavioral Principle

We are not convincing people to party.

We are offering structure, safety, and belonging.
If they hesitate, remove fear — not price.

SOP 8B — Private Group Sales System

Bangkok Club Crawl

Purpose

Convert private group inquiries (8+ guests) into structured, higher-margin bookings without wasting time.

Private sales must feel:

- Premium
 - Structured
 - Controlled
 - Not desperate
-

Section 1 — Trigger: When to Switch to Private Path

Switch to Private Path if:

- 8+ guests
- Birthday / bachelor / celebration
- Custom timing request
- Wants "something special"
- Corporate mention

Do NOT continue public crawl script.

Section 2 — Qualification Gate (Before Quoting)

Before sending pricing, ask 4 mandatory questions:

1. Date?
2. Estimated guest count?
3. Occasion?
4. Budget range per person?

If they avoid budget →

They are price shopping.

Respond:

"Budget helps me design the right experience for your group."

No budget clarity → no custom proposal.

Section 3 — Tiered Private Structure (Keep It Simple)

Never build custom from scratch immediately.

Use 3 anchored tiers:

Tier 1 — Private Group (Basic)

- Structured crawl
- Reserved access
- Host dedicated
- No full customization

Tier 2 — Elevated Private

- Reserved tables

- Welcome drinks
- Priority entry
- More flexibility

Tier 3 — Full Custom

- Venue selection
- Bottles
- Transportation
- Full coordination

Anchoring higher increases perceived value.

Section 4 — Psychological Framing

Don't sell "bar crawl."

Sell:

- Seamless night
- No coordination stress
- No arguing with bouncers
- No splitting bills chaos
- No venue hopping confusion

Phrase example:

"For groups, it's less about venues — more about making sure the night runs smoothly without you managing logistics."

Section 5 — Pricing Positioning Rule

Never apologize for pricing.

If they say "too expensive":

"Private nights remove all friction — you're paying for coordination, not just entry."
Hold frame.

Section 6 — Deposit Rule

Private bookings require:

- Non-refundable deposit
- Clear payment schedule
- Written confirmation

No deposit → no reservation.

Section 7 — Lead Handling KPI (Founder Only)

Track:

- Private inquiries per month
- Qualified inquiries
- Conversion rate
- Revenue per private event
- Average group size

This becomes scalable revenue lever.

SOP 9 — CRM Tagging & Broadcast Control System

Bangkok Club Crawl

Purpose

This SOP governs:

- Guest tagging structure
- Broadcast segmentation
- Follow-up timing
- Tag cleanup rules
- Repeat guest tracking

Objective:

Increase event attendance without creating confusion, spam, or messy CRM data.

No broadcast runs without tag logic.

Section 1 — Core Tag Categories

Keep tag system minimal.

No over-tagging.

A) Booking Status Tags

- ♦ Booked — [Event Date]
- ♦ Attended

- ♦ No Show
- ♦ Rescheduled
- ♦ Refunded

These are operational tags.

B) Interest Tags (Temporary)

- ♦ Interested — Friday
- ♦ Interested — Saturday
- ♦ Interested — This Weekend

These are short-term tags.

Must be removed after event passes.

C) Repeat & Value Tags

- ★ Repeat Guest
- ★ VIP Potential
- ★ Private Inquiry
- ★ Corporate Inquiry

These are long-term tags.

Do NOT delete.

Section 2 — Broadcast Rules

Never broadcast to entire database blindly.

Always segment.

Broadcast Type 1 — Weekend Fill Push

Audience:

- Interested — This Weekend
- Repeat Guest
- Past Attended (Last 90 Days)

Message tone:

Short. Confident. Limited spots.

Example:

"Friday almost full. 3 spots left.

If you're in Bangkok and want in, let me know."

No essay.

Broadcast Type 2 — Last-Minute Fill (Day Of)

Send only if:

- At 4–6 PM
- Below target capacity

Audience:

- Interested tag only
- Not already booked

Do not blast entire CRM.

Broadcast Type 3 — VIP / Private Upsell

Audience:

- VIP Potential
- Private Inquiry
- Repeat Guest

Tone:

Personal, not mass.

No hard selling.

Section 3 — Tag Cleanup Logic

After each weekend:

- Remove Interested — Friday/Saturday tags
- Remove Interested — This Weekend tag
- Keep Attended
- Keep Repeat

No expired tags.

Dirty tags destroy broadcast clarity.

Section 4 — Repeat Guest Logic

System tracks repeat automatically by phone.

When repeat guest books:

- Add ★ Repeat Guest (if not already)
- Notify assigned host

Repeat status is permanent.

Section 5 — Broadcast Frequency Rules

Maximum:

- 2 promotional broadcasts per week
- 1 last-minute push per event
- No daily spam

If guest unsubscribes → remove from broadcast list.

Brand positioning must stay premium.

Section 6 — Performance Tracking

Founder tracks monthly:

- Broadcast send count
- Broadcast response rate
- Broadcast conversion rate
- Repeat guest booking %
- Fill rate per event

If broadcast does not increase attendance → refine targeting, not frequency.

Section 7 — Non-Negotiables

Never:

- Broadcast without segmentation
- Re-message non-responders repeatedly
- Keep expired tags
- Over-message repeat guests

Clean CRM = scalable growth.

Strategic Reminder

CRM is not storage.

CRM is leverage.

Tagging discipline today → automation power later.

SOP 9 complete.

Bangkok Club Crawl

Purpose

This SOP governs:

- Guest tagging structure
- Broadcast segmentation
- Follow-up timing

- Re-message non-responders repeatedly
- Keep expired tags
- Over-message repeat guests

Clean CRM = scalable growth.

Strategic Reminder

CRM is not storage.

CRM is leverage.

Tagging discipline today → automation power later.

SOP 9 complete.

SOP 10 — Financial Control & Event Budgeting

Bangkok Club Crawl

Purpose

This SOP governs:

- Profit tracking per event
- Margin discipline
- Host cost tracking
- Platform commission tracking
- High-volume night budgeting

Objective:

Every event must be financially measured.

No night runs without knowing profit.

Section 1 — Standard Event Profit Tracking

Every event must record:

A) Revenue

- Total guests
- Ticket price per guest
- Total gross revenue

- OTA commission deducted
 - Net revenue received
-

B) Variable Costs

- Host pay (base + per head)
 - Bottle commission payout (if any)
 - Transport cost (if applicable)
 - Marketing spend (if ad-driven night)
 - Platform fees (if separate)
-

C) Fixed / Allocated Costs (Optional but Recommended)

- Monthly software tools divided per event
- Operational admin allocation
- Branding cost allocation

Keep this simple if needed.

Section 2 — Profit Formula

For each event:

Net Revenue

– Total Variable Costs

= Event Net Profit

You must see this number clearly.

Target benchmark:

Minimum 5,000 THB net per standard weekend event.

If below threshold → review cause.

Section 3 — Profit Health Benchmarks

Healthy Standard Night:

- 10+ guests
- 700 THB+ profit per guest
- 5,000–8,000 THB event profit

Below 5 guests:

- Event should not run (unless Founder override)
-

Section 4 — Founder Override Rule

Founder may run event under minimum if:

- High-quality guests
- Strategic review opportunity
- Influencer presence
- Partnership reason

Override must be documented.

Do not normalize emotional decisions.

Section 5 — High-Volume Night Budget Planning

For special nights (Valentine, Halloween, NYE, etc.)

Must create pre-event budget including:

A) Revenue Projection

- Expected guest count
- Ticket tiers

- Upsell revenue
 - Sponsorship (if any)
-

B) Cost Projection

- Extra hosts
 - Extra transport
 - Venue fee
 - Entertainment / DJ
 - Decor
 - Marketing push
 - Security
 - Contingency (5–10%)
-

C) Break-Even Point

Calculate:

Total projected cost ÷ Expected ticket revenue per guest

= Minimum guests required

Do not launch big night without knowing break-even.

Section 6 — Commission & Payout Log

Monthly:

Record:

- Host review bonuses
- Referral commission
- Repeat commission
- Bottle commission

Track per host.

This ensures:

- No overpayment
 - No forgotten payout
 - Performance visibility
-

Section 7 — Monthly Financial Review

At end of each month review:

- Total events run
- Total profit
- Average profit per event
- Best performing night
- Weakest performing night
- Marketing ROI

Adjust strategy accordingly.

Section 8 — Red Flags

Investigate immediately if:

- Profit per guest drops below 600 THB
- Guest count declining for 3 consecutive weeks
- Commission payout exceeding 25% of event profit
- High-volume night margin below 20%

Profit erosion must be caught early.

Section 9 — Scaling Decision Trigger

Only increase:

- Marketing budget
- Host expansion
- New city expansion

If:

Average guests per event consistently above 10

AND

Profit margin stable above target

No scaling on unstable margins.

Strategic Reminder

Revenue feels exciting.

Profit funds growth.

Measure profit first.

SOP 11 — Incident & Escalation Protocol

Bangkok Club Crawl

Purpose

This SOP governs:

- Guest conflict
- Over-intoxication
- Harassment
- Venue disputes
- Payment issues
- Medical situations
- Reputation protection

Objective:

Protect the group.

Protect the brand.

Protect the venue relationship.

Energy must stay controlled — even during problems.

Section 1 — Core Principle

When incident occurs:

1. Stay calm.

2. Lower visibility.
3. Protect group energy first.
4. Resolve discreetly.
5. Document after.

Never escalate emotionally.

Guests should never feel panic.

Section 2 — Intoxication Protocol

Early Signs:

- Slurred speech
- Aggressive tone
- Over-touching
- Losing balance
- Ignoring host direction

If detected:

1. Slow their alcohol pace.
2. Offer water.
3. Change seating position.
4. Keep them near host.

If behavior escalates:

- Remove from dance floor.
- Separate from group.
- Inform co-host.
- Assess risk.

If unsafe:

- Arrange Grab home.
- Inform friend in group.
- Document in report.

No guest is allowed to destabilize the group.

Section 3 — Harassment / Guest Misconduct

Zero tolerance for:

- Unwanted touching
- Repeated pressure
- Aggressive behavior
- Verbal abuse

Procedure:

1. Remove accused from immediate area.
2. Speak privately.
3. Warn once if minor.
4. Remove from crawl if repeated.
5. Inform venue security if needed.

Protect female guests first.

Brand safety > ticket price.

Section 4 — Guest-to-Guest Conflict

If argument starts:

1. Separate immediately.
2. Lower volume.

3. Remove to quiet corner.
4. De-escalate tone.
5. Do not take sides publicly.

If unresolved:

- Separate permanently.
- Assign different host attention.
- Remove one party if required.

Never argue in front of entire group.

Section 5 — Venue Conflict

If venue staff complains:

1. Stay calm.
2. Do not argue emotionally.
3. Remove problem guest if needed.
4. Protect venue relationship.

After event:

- Review what happened.
- Adjust internal rules if necessary.

Venue partnerships are strategic assets.

Section 6 — Payment Issues

If guest claims:

- Already paid
- Double charged
- Wrong booking date

Response:

1. Do not argue on floor.
2. Check CRM privately.
3. If unclear — allow entry temporarily.
4. Verify after.

Protect brand perception first.

Resolve backend later.

Section 7 — Medical Situation

If guest faints / injured:

1. Stop escalation.
2. Call venue security immediately.
3. Assess consciousness.
4. Call emergency if needed.
5. Inform friend in group.
6. Founder notified immediately.

Document everything after.

No improvisation in medical cases.

Section 8 — Founder Escalation Threshold

Founder must be informed if:

- Guest removed from crawl
- Venue complaint
- Security involved
- Injury occurred

- Police involved
- Public social media complaint

Within 12 hours.

Section 9 — Documentation Protocol

After event (within 24h):

Host submits short report including:

- What happened
- Who involved
- Action taken
- Outcome
- Risk assessment

No emotional storytelling.

Just facts.

Section 10 — Reputation Protection

If negative review appears:

1. Founder handles response.
2. Do not let host respond publicly.
3. Stay calm, structured, professional.
4. Offer solution if reasonable.
5. Never attack guest publicly.

Brand tone must remain:

Confident. Controlled. Done Right.

Section 11 — Removal Authority

Host has authority to remove guest if:

- Threatening safety
- Harassment confirmed
- Repeated rule breaking
- Severe intoxication

No refund if removal due to misconduct.

Founder final decision if dispute.

Final Rule

Incidents test authority.

Authority is measured by:

Calm under pressure.

If handled quietly → brand strengthens.

If handled emotionally → brand weakens.

Section — Airbnb Review Handling Protocol

All review handling must comply with Airbnb Review Policy.

Hosts must never:

- Ask for only 5-star reviews
 - Pressure guests to leave positive reviews
 - Offer incentives for positive reviews
 - Ask guests to change or remove reviews in exchange for compensation
 - Retaliate publicly
-

Post-Event Review Encouragement (Allowed)

Hosts may say:

"Thank you for joining us. If you enjoyed the experience, we'd truly appreciate a review — it helps small local experiences like ours grow."

Neutral. No pressure. No rating request.

If Negative Review Appears

Follow Airbnb Review Policy standards:

1. Do not contact guest aggressively.
2. Do not attempt to manipulate review.
3. Founder handles public response.
4. Respond professionally, calmly, and fact-based.
5. Offer clarification if misinformation exists.

Only request Airbnb removal if:

- Review violates Airbnb content guidelines
- Contains hate speech, threats, or irrelevant content
- Is not related to the actual experience

Founder handles any removal request through official Airbnb process.

Hosts never engage publicly.
